

EduVision Higher Education Analytics Suite

Module 4 Deliverable: Dashboard Planning & Storyboard Architecture
Project Milestone 2 | Springboard Virtual Internship

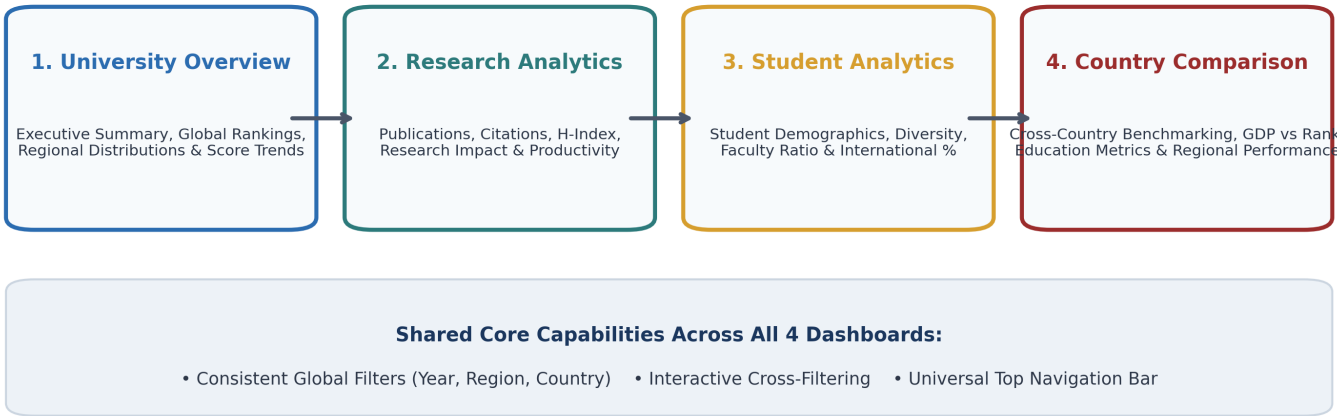

Project Title:	EduVision Higher Education Dashboard Suite	Dataset:	university_final_dataset.xlsx
Deliverable:	Module 4 Dashboard Storyboard	Total Records:	22,125 rows 3,416 Universities
Tools:	Tableau, Python, Pandas, ReportLab	Time Period:	2016 – 2026 (11 Years Tracked)

1. Executive Storyboard Overview

This storyboard serves as the wireframe blueprint for the interactive Tableau dashboard suite prior to development. The architecture is structured into four interconnected, interactive dashboards designed to cater to university administrators, researchers, global educators, and policymakers.

EduVision Dashboard Suite Architecture

Module 4: Interconnected Storyboard Architecture & Interaction Blueprint

Core System Capabilities & Navigation Principles:

- Unified Top Navigation Bar:** Enables instant seamless switching across all 4 dashboards with active page highlights.
- Global Filter Controls:** Consistent left-hand filter panel (Year, Region, Country, Subject Field) that propagates state seamlessly across visualizations.
- Interactive Cross-Filtering:** Clicking on any chart element (e.g., country on map or bar segment) filters all adjacent views.

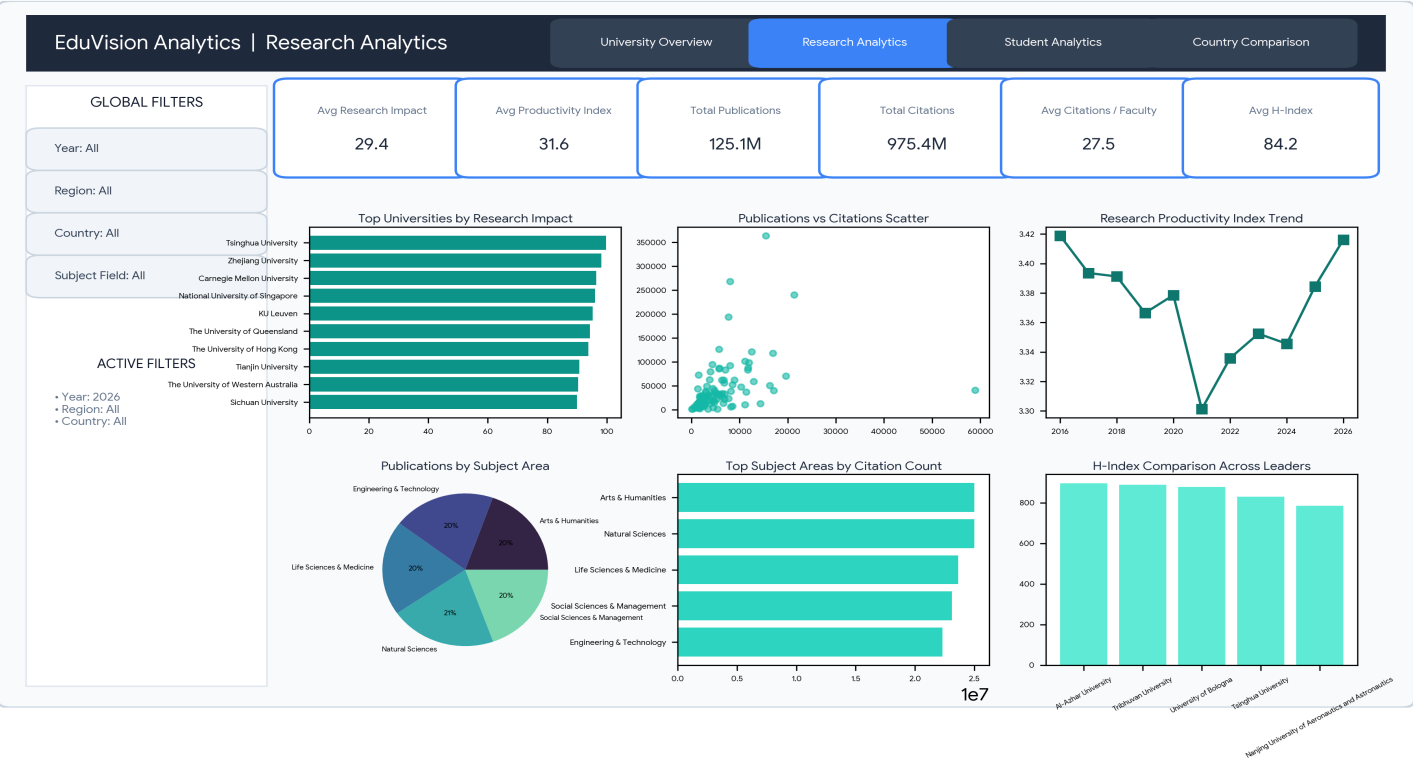

2. Dashboard 1: University Overview Wireframe

Objective: Serves as the executive summary landing page for global higher education performance, providing high-level KPIs, ranking summaries, and regional distributions.

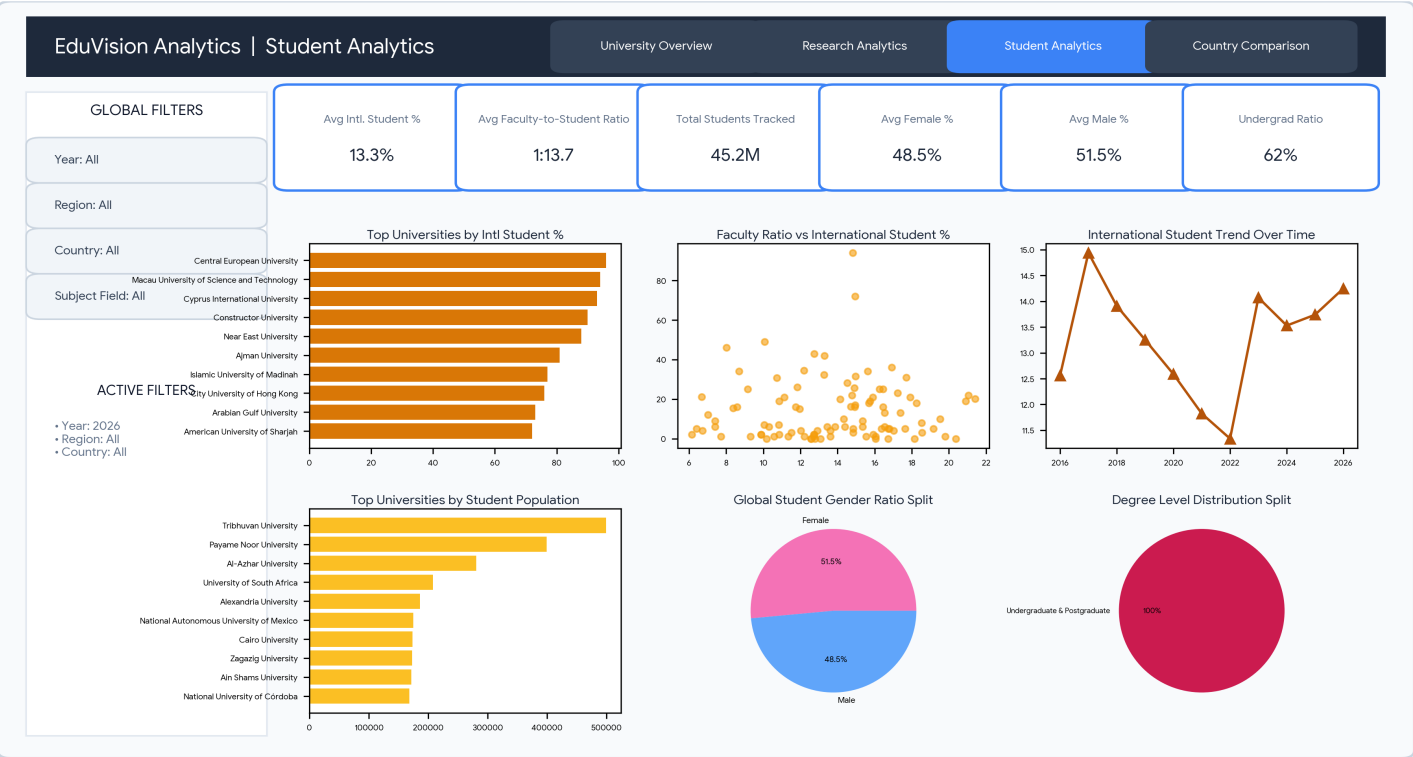

3. Dashboard 2: Research Analytics Wireframe

Objective: Deconstructs institutional research impact, citation performance, publication output, and subject-field productivity.

4. Dashboard 3: Student Analytics Wireframe

Objective: Examines student diversity, internationalization trends, faculty-to-student ratios, and gender demographics.

5. Dashboard 4: Country Comparison Wireframe

Objective: Facilitates multi-country benchmarking across higher education metrics, national ranking averages, and regional performance.
